

## **Acceptance as an Alternate Form**

Dear Costa Rica Science Research Experience Applicant:

Thank you for your application to the Seeds of Change Costa Rica Science Research Experience (CRSRE). We are disappointed to inform you that the CRSRE has been over subscribed for the 2011 program. We had many students with different talents applying and the program positions. However, based on your application and recommendations, you have been selected as an alternate if you so choose to participate. As an alternate you would replace any such student drop out as a position might become available. It is our experience that with a group of this many participants there are family emergencies, personal health problems or economic factors which cause students to have to drop out of the program.

The first step to enroll in the course is to secure your spot through the first down payment of \$100 which is due on \_\_\_\_\_, 2010. This down payment should be submitted to \_\_\_\_\_. All checks should be made out to *Seeds of Change, CRSRE*. After all spots are secured, students and parents will be notified of upcoming class and parent meetings. The payment and fundraising schedule for the remaining \$3200 will be provided to you by your trip teachers.

Should your alternate position not open up by \_\_\_\_\_ 2011, all of your non fund raising monies will be returned to you. Monies that you have raised by fund raising will be kept in an escrow account for one year as a credit toward the next years trip should you apply. Your position on the following years trip will be assured.

Feel free to contact the \_\_\_\_\_ lead teacher if you have any questions

Sincerely:

The \_\_\_\_\_ High School/Seeds of Change Selection Committee
